We are focused on generating attractive sustainable returns for shareholders
PROGRESS AGAINST OUR SHAREHOLDER VALUE PROPOSITION

Solid progress against many of the elements of our shareholder value proposition, with strong plans in place to drive continued improvements in Australia and Indonesia.
SUSTAINABILITY UPDATES

Wellbeing
- Commitment to reduce the sugar across our portfolio of sales in Australia by 20 per cent by 2025, extending our previous commitment of 10 per cent by 2020
- 5.7 per cent reduction for non-alcoholic beverages portfolio sugar grams per 100ml in Australia and 3.2 per cent reduction achieved in New Zealand in 2018

Packaging
- Signed up to the Australian National Packaging Targets, which included a range of ambitious targets including a commitment to 30 per cent average recycled content in all packaging by 2025
- Coca-Cola Australia and Coca-Cola Amatil announced a major increase in recycled plastic – 70 per cent of the plastic bottles manufactured in Australia will be made entirely from recycled plastic from 2020
- Support for The Coca-Cola Company’s 2030 World Without Waste ambition to collect and recycle one container for every one sold

SPC & AMATIL X UPDATES

SPC
- In August 2018 announced the commencement of a strategic review of growth options for SPC, which coincided with completion of a four-year, $100 million co-investment in conjunction with the Victorian Government
- In November 2018 the review was concluded and it was announced that the best way to unlock these opportunities is through divestment
- In June 2019 announced the sale of the business to Shepparton Partners Collective Pty Ltd for consideration of $40 million payable at completion
- Taking into account forecasted working capital balances, working capital adjustments to the sale price and costs of disposal, a profit on sale of $10-15 million is expected to be recorded upon completion. Both parties are targeting a completion date before the end of June
- The sale agreement also includes a four-year deferred payment which, subject to business performance, could result in up to an additional $15 million of sale proceeds at that time
- Due to the realisation of recognised deferred tax assets, Amatil’s ability to frank dividends will be significantly impacted in the short to medium term

Amatil X
- Minority investments made in Doshi and Tabsquare in 2018, start ups designed to assist RECA customers
- Announced partnerships with three Australian scale-ups that have ‘ready-to-go’ ideas to improve delivery of efficiency and consumer experience
- Established operations in Indonesia to help accelerate local start-ups

ADDITIONAL DEVELOPMENTS
2019 OUTLOOK

2019 will be the second year of a two-year transition phase for the Group.

- **Australian Beverages**: we will be positioned for growth in 2020 with the completion of the additional $10 million of investment in our Accelerated Australian Growth Plan to increase our salesforce and, with container deposit schemes in NSW and Queensland substantially embedded by the end of 2019

- **Indonesia**: we are encouraged by the volume growth we delivered from April 2018 and will continue to deliver our Accelerate to Transform strategy with additional direct marketing expenditure to be invested in 2019; however macroeconomic conditions, weak Indonesian Rupiah, higher commodity costs and current consumer spending trends are expected to continue

- **New Zealand & Fiji, Papua New Guinea and Alcohol & Coffee**: expected to deliver growth in line with our Shareholder Value Proposition

- **Corporate & Services**: an EBIT loss of $10 to $12 million expected in line with the outlook provided in November 2018 due to lower property rental and services earnings, increased Group capability and investment in IT platforms

NON-TRADING ITEMS

- As part of our cost optimisation programs in Australian Beverages, we are expecting one-off costs in 2019 of up to $30 million

- We are pursuing additional opportunities within our Property Division which may result in one-off gains in 2019, partially offsetting the one-off costs

TARGET FROM 2020 AND BEYOND

- We remain committed to our Shareholder Value Proposition targeting a return to delivery of mid-single digit earnings per share growth from 2020

- This will depend on the success of revenue growth initiatives in Australia, Indonesian economic factors and regulatory conditions in each of our markets
2019: CAPEX, DIVIDENDS AND BALANCE SHEET

CAPITAL EXPENDITURE

• 2019 Group capex expected to be similar to Group capital expenditure in 2018, reflecting the deferred payments from 2018 and continued deployment of capital in Indonesia, including a second affordable small sparkling pack line

DIVIDENDS

• Continue to target medium term dividend payout ratio of over 80 per cent

• Due to the increasing proportion of earnings from outside Australia and the realisation of recognised deferred tax assets as a result of the sale of SPC, Amatil’s ability to frank dividends will be significantly impacted in the short to medium term

BALANCE SHEET

• Balance Sheet to remain conservative with flexibility to fund future growth opportunities

• Expecting to maintain strong return on capital employed

• We will seek to maximise value for shareholders by pursuing additional opportunities within our Property Division

STRATEGY– CHANNEL
“MUST WIN”: STATE IMMEDIATE CONSUMPTION

Precision availability and activation in the state immediate consumption channel will be driven by a segmented execution, portfolio optimisation and increasing the face to face customer experience.

PRIORITIES & PROGRESS

- Increase sales force dedicated to State Immediate Consumption channel by approximately 80 per cent
- This will result in a step change in our route to market in this channel
- Substantially increase our visitation frequency by approximately 65 per cent to:
  - Build stronger customer relationships
  - Allow more interactions to sell
  - Allow more time to activate
- Targeting to increase core range and category availability; improve cooler purity and improve other execution metrics
- Expecting an additional investment of ~$10 million

CONTAINER DEPOSIT SCHEMES

$10.0 million from the accrual of unredeemed deposits and fees in NSW returned to the income statement in 1H18. Australian Beverages’ volumes have been impacted by the implementation of container deposit schemes in NSW, the ACT and QLD and will continue to be impacted by the introduction of schemes in WA and Tas.

NEW SOUTH WALES

FY18 OVERVIEW

- **Volume:** NSW volumes decreased 3.4 per cent, whereas National ex-NSW volumes decreased 0.4 per cent
- **Actions:** We reduced our CDS charge in NSW from 13.59 cents (excluding GST) to 10.91 cents (excluding GST) from 1 August reflecting lower than anticipated redemption rates
- **Accounting:** We had been accruing any unredeemed deposits and fees on our balance sheet
- At the half year end, we were required to credit $10.0 million of this accrual to the income statement to reduce the accrual to an amount we believe is still payable under the scheme
- This credit was substantially returned to consumers through additional price investments in NSW in the second half

OTHER STATES

AUSTRALIAN CAPITAL TERRITORY

- Commenced 30 June 2018
- Similar to NSW scheme with charge from 1 August set at 10.91 cents (excluding GST) per eligible container

QUEENSLAND

- Commenced 1 November 2018 with charge set at 10.38 cents (excluding GST) per eligible container
- Actively participating in administration of the scheme
- From the introduction of the scheme to date there’s been a larger impact on volumes than experienced in NSW during the equivalent period

WESTERN AUSTRALIA

- Targeting implementation in early 2020

TASMANIA

- Expected to be rolled out by 2022

STRATEGY – ENABLERS
PORTFOLIO SIMPLIFICATION AND INNOVATION

We are sharpening our ranging in outlets, maximising product facings towards best sellers and reducing low return products

PRIORITY & PROGRESS

- Undertaking a full product quadrant analysis
- Targeting to simplify the portfolio and develop more effective planograms, optimised by product and by segment
- Several supply chain benefits in manufacturing and distribution

STRATEGY – ENABLERS
COST OPTIMISATION & REINVESTMENT

Investing an additional $10 million in 2019 as well as continuing to reinvest the cost savings expected to be delivered in 2019

COMMENTARY

- We have previously aimed to reinvest the cost savings in the year it was expected to be delivered
- In 2018 we are making an additional investment of ~$40 million
- In 2019 we will make an additional ~$10 million, as well as reinvesting the cost savings expected to be delivered
- The additional ~$10 million in 2019 will be allocated towards our initiative to increase our salesforce in the state immediate consumption channel, and will become part of our cost base in 2020
- We remain committed to our plan to restore Australian Beverages to revenue and earnings growth but this additional investment will have a negative impact on earnings in 2019
