ADDITIONAL DEVELOPMENTS

SPC & AMATIL X UPDATES

SPC
- In August 2018 announced the commencement of a strategic review of growth options for SPC, which coincided with completion of a four-year, $100 million co-investment in conjunction with the Victorian Government
- In November 2018 the review was concluded and it was announced that the best way to unlock these opportunities is through divestment
- There are many opportunities for growth in SPC, including new products and markets, further efficiency improvements, and leveraging technology and intellectual property
- Given the wide range of offers received in the first round of bidding, in terms of size and structure, and the inherent uncertainty of the financial outcome of the sale process, we reduced the carrying value of SPC’s net assets held for sale as at 31 December 2018 to zero
- The divestment process has proceeded to negotiations with a shortlist of parties

Amatil X
- Minority investments made in Doshi and Tabsquare in 2018, start ups designed to assist RECA customers
- Announced partnerships with three Australian scale-ups that have ‘ready-to-go’ ideas to improve delivery of efficiency and consumer experience
- Established operations in Indonesia to help accelerate local start-ups

SUSTAINABILITY UPDATES

Wellbeing
- Commitment to reduce the sugar across our portfolio of sales in Australia by 20 per cent by 2025, extending our previous commitment of 10 per cent by 2020
- In 2018 achieved a 5.7 per cent reduction in sugar across our portfolio of sales against the baseline of 2015

Packaging
- Signed up to the Australian National Packaging Targets, which included a range of ambitious targets including a commitment to 30 per cent average recycled content in all packaging by 2025
- Coca-Cola Australia and Coca-Cola Amatil announced a major increase in recycled plastic – 70 per cent of the plastic bottles manufactured in Australia will be made entirely from recycled plastic from 2020
- Support for The Coca-Cola Company’s 2030 World Without Waste ambition to collect and recycle one container for every one sold
2019 OUTLOOK

2019 will be the second year of a two-year transition phase for the Group.

- **Australian Beverages**: we will be positioned for growth in 2020 with the completion of the additional $10 million of investment in our Accelerated Australian Growth Plan to increase our salesforce and, with container deposit schemes in NSW and Queensland substantially embedded by the end of 2019
- **Indonesia**: we are encouraged by the volume growth we delivered from April 2018 and will continue to deliver our Accelerate to Transform strategy with additional direct marketing expenditure to be invested in 2019; however macroeconomic conditions, weak Indonesian Rupiah, higher commodity costs and current consumer spending trends are expected to continue
- **New Zealand & Fiji, Papua New Guinea and Alcohol & Coffee**: expected to deliver growth in line with our Shareholder Value Proposition
- **Corporate & Services**: an EBIT loss of $10 to $12 million expected in line with the outlook provided in November 2018 due to lower property rental and services earnings, increased Group capability and investment in IT platforms

NON-TRADING ITEMS

- As part of our cost optimisation programs in Australian Beverages, we are expecting one-off costs in 2019 of up to $30 million
- We are pursuing additional opportunities within our Property Division which may result in one-off gains in 2019, partially offsetting the one-off costs

TARGET FROM 2020 AND BEYOND

- We remain committed to our Shareholder Value Proposition targeting a return to delivery of mid-single digit earnings per share growth from 2020
- This will depend on the success of revenue growth initiatives in Australia, Indonesian economic factors and regulatory conditions in each of our markets
2019: CAPEX, DIVIDENDS AND BALANCE SHEET

CAPITAL EXPENDITURE

- 2019 Group capex expected to be similar to Group capital expenditure in 2018, reflecting the deferred payments from 2018 and continued deployment of capital in Indonesia, including a second affordable small sparkling pack line.

DIVIDENDS

- Continue to target medium term dividend payout ratio of over 80 per cent.
- It is anticipated that franking will be at a lower level in the future due to the increasing proportion of earnings from outside Australia.

BALANCE SHEET

- Balance Sheet to remain conservative with flexibility to fund future growth opportunities.
- Expecting to maintain strong return on capital employed.
- We will seek to maximise value for shareholders by pursuing additional opportunities within our Property Division.

• Distribution of Rokeby Farms and Impressed Juice to begin in 2H19
• Targeted test & learn opportunities
STRATEGY – CHANNEL
“MUST WIN”: GROCERY
Sharpening our focus in grocery – RSVP model builds on the “perfect store” example

**RANGE**
- Core range in stock in aisle and cold drink
- Maximise the best seller products
- No ranging gaps

**SPACE**
- Aisle set to planogram
- Cooler set to planogram
- Additional equipment
- Stock availability

**VISIBILITY**
- Promotions executed to standard (in and out of aisle)
- Displays featuring right packs in right location
- Execute point of sale
- Coolers in best location

**PRICE**
- All promotions clearly ticketed (in and out of aisle)
- Points of sale activated

STRATEGY – CHANNEL
“MUST WIN”: STATE IMMEDIATE CONSUMPTION

Precision availability and activation in the state immediate consumption channel will be driven by a segmented execution, portfolio optimisation and increasing the face to face customer experience.

PRIORITIES & PROGRESS

- Increase sales force dedicated to State Immediate Consumption channel by approximately 80 per cent.
- This will result in a step change in our route to market in this channel.
- Substantially increase our visitation frequency by approximately 65 per cent to:
  - Build stronger customer relationships
  - Allow more interactions to sell
  - Allow more time to activate
- Targeting to increase core range and category availability; improve cooler purity and improve other execution metrics.
- Expecting an additional investment of ~$10 million.

**REVENUE GROWTH MANAGEMENT**
- Program in place in 2019 to replicate a significant overhaul of our revenue growth management activities

**COST OPTIMISATION & REINVESTMENT**
- Continue delivering on our cost optimisation programs
- Objective to strike the right balance between efficiency and engagement – “lean but not mean”
- $10 million of additional investment in 2019 to maintain momentum

**PRODUCT PACKAGING & SUSTAINABILITY**
- Product and packaging sustainability is crucial to permissibility, underpinning our future performance
- Commitment to reduce sugar grams per 100ml by 10% by 2020 and 20% by 2025
- 100% of Coca-Cola Amatil packaging to be recyclable by 2025

**OVERHAULED S&OP PROCESS**
- A more streamlined and effective S&OP process will enable greater accountability and harness the power of “healthy tension” to drive better outcomes
- Implemented in 3Q18
- Refinements and embedding expected to be complete in 2019

STRATEGY – ENABLERS
PORTFOLIO SIMPLIFICATION AND INNOVATION

We are sharpening our ranging in outlets, maximising product facings towards best sellers and reducing low return products

PRIORITIES & PROGRESS

• Undertaking a full product quadrant analysis
• Targeting to simplify the portfolio and develop more effective planograms, optimised by product and by segment
• Several supply chain benefits in manufacturing and distribution

STRAATEGY – ENABLERS
COST OPTIMISATION & REINVESTMENT

Investing an additional $10 million in 2019 as well as continuing to reinvest the cost savings expected to be delivered in 2019

**COMMENTARY**

- We have previously aimed to reinvest the cost savings in the year it was expected to be delivered.
- In 2018 we are making an additional investment of ~$40 million.
- In 2019 we will make an additional ~$10 million, as well as reinvesting the cost savings expected to be delivered.
- The additional ~$10 million in 2019 will be allocated towards our initiative to increase our salesforce in the state immediate consumption channel, and will become part of our cost base in 2020.
- We remain committed to our plan to restore Australian Beverages to revenue and earnings growth but this additional investment will have a negative impact on earnings in 2019.
